There is no eye hospital at Withernsea or Castle Hill

email robert@higson.karoo.co.uk to report errors and omissions please

Please ensure clarity on faxes & remember to copy to the patients GP

You should confirm Fax numbers are secure and monitored. No need to confirm fax receipt on every occasion, this will overload staff, but the associated phone number is generally suitable for this.

Referrals for other departments (neurology etc.) should be sent via the patients G.P.
